A BOOK REVIEW - TRACING RESTLESS ANCESTORS

Restless ancestors created many problems for present day genealogists who try to trace their predecessors' movements. Not content with crossing the ocean to America, these ancestors scarcely accustomed themselves to the new land when they started moving again. However, fellow genealogists, take heart! The Hutchinson Public Library has a book that may help in the search for an elusive ancestor. It is "Migration, Emigration, Immigration" by Olga K. Miller, Logan, Utah: Everton Publishers, 1974. She has assembled a list of sources "many of which would not come to the researcher's mind."

This book is divided into five parts. pages 1-45 is entitled "General". It is divided into sections such as: "Indentured Servents", "Convicts and Rebel Prisoners", "Foreigners in American Wars", "Migration", etc. Let us say, for example, that you think your ancestor may have followed one of the many migration trails to the western part of the United States. On pages 38 and 39 you find many sources for specific trails or waterways. But you decide that you need more general information. Thus you choose two sources: "Pioneers on the Move" by Philip A. Muntz and "Trails, Roads and Waterways" by Archer B. Hulbert.

Part II, pages 45-68, contains sources for tracing "Religious and Refugee Groups". These are divided into "The Acadians" "The United Empire Loyalists", "Ministers", "Hugenots", "Mennonites", "Quakers", "Moravians" and many others. If, for instance, your great-grandparents belonged to the Moravian Church, you could turn to the section on "Moravians". Here you would find a brief history on the church in Europe and on its branches in this country. In addition, you would find a list of publications on Moravian churches in various states.

Since Part III on "Heraldry" has sources listed on only two pages, 69-70, it is obvious that Olga K. Miller does not expect many researchers to trace their ancestry by means of heraldry. You may wish to hurry over this section.

Part IV, pages 72-171, "States of the United States and District of Columbia" deserves careful scrutiny. Each state is a significant division which, in turn, is subdivided. Hence by turning to Kansas, you find and "A Brief History of Swiss Mennonites in Kansas".

In Part V, pages 173-234, you find information on "Some European Countries". Specifically, these countries are divided into "The Iron Curtain Countries", "Canada", "German-Speaking Countries", "Great Britian and Her Possessions". "Scandinavia" and "Western Europe". Though the listing does not cover all countries, it does have valuable informational sources for most of the European countries.

Obviously, our ancestors were restless, because they were searching for better opportunities than they had. Despite their tendancy to move often, they can sometimes be traced on the basis of their homelands, their voyages to America, their religious affiliations, or their migration paths. Let "Migration, Emigration, Immigration" furnish you with new ideas for your ancestral search.

SOCIETY PROJECTS

Marriage Records

Everett Wells reports that he has a diligent committee hard at work recording the marriage records from microfilm. He says he has enough help for now. but if you want to work on this project, he will be glad to put you on his waiting list. Call Everett at 662-7852.

CEMETERY RECORDS

The "Cemetery Records of Reno County" book is scheduled to go to press the first week in June 1980. The orders are coming in. Many people have done much work on this project and its a job well done. We are proud of our very first attempt at publishing.

OBITUARY FILE

We hope you are making use of the Obituary File which is in the card file in the Kansas Room at the Library. Evelyn Gardner maintains this file by clipping the obituaries from each issue of the Hutchinson News and fastening the clipping to a 3 x 5 card. Obituaries begin with May 1977.

RENO COUNTY GENEALOGICAL SOCIETY IS NOW INCORPORATED!

It's official. We are now an incorporated society. Roy Gardner has master-minded this project with the help of Jayne Purcell, Maureen Bellizio and Maxine Lindburg. The committee is now working on obtaining for us a "tax exempt" status. When we have been declared tax exempt by the Internal Revenue Service, any contributions made to the society may then be declared as income tax deductions (but not your dues).

SURNAME INDEX

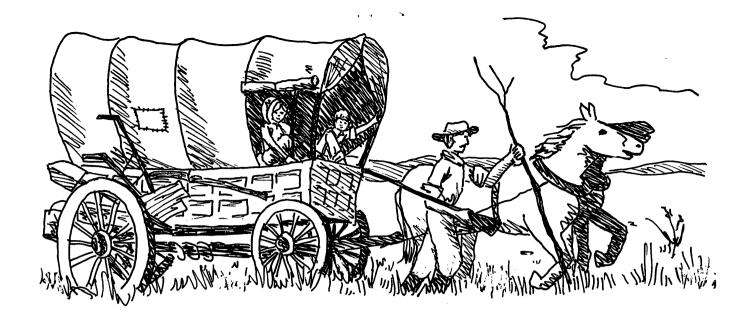

Jolene Cook is in charge of the Surname File. Members are asked to submit a four generation Pedigree chart. The names from the charts are then transferred to the Surname File. This file is in the Library in the card file. If you need a pedigree chart, see Jolene.

FORMS FOR SALE

As a service to the membership, we have some forms for sale. Ancestor charts are 5¢, Family Sheets are 4ϕ or you can purchase a package of 28 family sheets and 4 ancestor charts for \$1.25.

A LONG TRIP ON THE PRAIRIE

Almost 100 years ago, Fletcher Moses Canfield left Wisconsin and set out to join his daughter and her family, Mrs. James Nelson Waer (Ellen Canfield), in Hutchinson, Kansas. The trip took seven weeks. Now we could make the same trip in two days.

Exerpts from the diary of the trip were furnished by RCGS member Virginia Canfield. Fletcher Moses Canfield was the great-grandfather of Virginia's husband Tony.

13 June 1887 - Monday

Started from our old home at 9-10 a.m. Tom and Mary in company. Leaving many dear friends behind, with whom we had formed a tie that was hard to be broken. Having 3 head of cattle of Tom's to take through with us, we only got as far as Fred Brysons for dinner. Then started out and drove within 3/4 mile of Pinegrove and went into camp at dusk. Some rain during the night but we got along very well.

Broke camp about 6 o'clock and drove down to C.P. Bennets. This p.m. was very hot. Jerome bought one of Tom's cows for \$22.

Wednesday

We camped in about 300 yards of the Wisconsin River. Thursday

Up again at daylight, turned stock out to feed. We pulled out 7 a.m. Drove into town bought oil stove, oats, snotrags, bologna and a creamery can to carry water in. We passed through Fenimore $5\frac{1}{2}$ p.m. I saw the first narrow gage railroad I ever saw.

Saturday

Pulled out for Potosi, quite a mining town. There is a smelting furnace here to smelt ore and run it into pig. Crossed the R.R. and a long bridge that spanned a channel of the grand old Sip (Mississippi). Saw two trains of cars and 3 or 4 steamboats. Bad wind storm, little rain about 3 o'clock. Fred was hit with a piece of dead limb on left shoulder. No one else was hurt.

21 June 1887 - Tuesday

Broke camp at Oakville. We passed through Centralia and Epworth on our march today.

Thur sday

We are now about 55 miles of Waterloo with the air very cold and by ther thermometer mercury stands at 4 degrees above freezing point.

Friday

We arrived at Independence, the most beautiful place I have seen in the state and I should judge about 3,000 inhabitants.

27 June 1887 - Monday

Pulled out for Blairstown, going west missed our road going about 5 miles out of our way but made the best time today of any on the trip, traveling about 28 miles.

Tuesday

We could not make a very big drive on account of its being so hot and heating up the cattle. The mercury standing at 92° in the shade.

Thur sday

Sherman went to town (Brooklyn) to get some black-smithing done but we got started in pasibly good season. We came to Grinnell where we got some provisions A sack of flour \$1.15, pork 38¢, peanuts 10¢.

Saturday

Camp on Cherry Creek, pulled out for Colfax. The intention was to stop at the Big Skunk River to do a little washing but it was so muddy that we concluded to drive on. We came to a school house where we found plenty of water. We pulled up, turned out our teams to feed and the women went to washing.

<u> 3 July 1887 – Sunday</u>

There was quite an important event took place this p.m which will be long remembered. Our men took the cattle and horses to the river to water and while there formed themselves into a mining company, but not being very well versed in the art they did not sucseed as well perhaps as they would desire, but we will call them the "Northern Wisconsin and Kickapoo Mining Co." But the joke of the whole matter was they sunk capital and got sold out for 50¢. So this mining company concluded to stop mining and were minded to mind their own business. The names of this extensive mining co. were T.J. Rinehart, Wm. J. Harper, S.F. Canfield, John Anderson, F.M. Canfield, George H. Rinehart, Ed and Charles Harper.

Started out on our route for Des Moines. It was very cold and pleasent to drive. We came to a little place called Mitchelsville Just as the rag muffins were getting ready to parade through the streets. We stopped and watched them. We came to another place called Alteona, not much of a place but they were holding a celebration at that place so we were at two places where they were holding the 4th.

5 July 1887 - Tuesday

Pulled out for the city, the capitol of Iowa, but it was almost impossible to see the city for the trees. We passed directly by the Capitol Building. It was a spendid sight and we would have been extremely delighted could we have time to go through the building.

Wednesday

A very hot day, no feed to be had but when noon came we stopped and cut grass for our horses. I never saw so dry a time in all of my life.

Friday

Got up at usual time but the women are determined to stop and wash and dry some clothes being there was a good chance for water.

Saturday

There seems to be a dissatisfaction by some and they want to rush things too fast. More than our cattle can stand.

Sunday

No feed for our cattle and horses.

12 July 1887 - Tuesday

A slough ran near the road and the cattle went to drink, then a cow got mired so we had to help her out of the mud and it was awful sticky. We drove on to Villisca a R.R. town where I bought some beef, oil, apples and sausage. We found lots of good tame hay scattered on the ground to feed our horses. It is most fearful hot.

Wednesday

We camped for the night on a little stream about $1\frac{1}{2}$ mile of Missouri line. Bought some feed for cows, also bought a bushel of apples for $40\,\text{¢}$ and paid in maple sugar.

Thursday

Our road today has been very rough up hill and down. We are camped about 20 miles of the Missouri River in Atchison Co., Mo. We have passed through some beautiful country today.

Saturday

Come to Phelps, drove on to ferry. Got there just in time. Three heavy wagons and one single wagon, 1-2 horse buggy, 46 head of cattle, three saddle horses was all on the boat at once. The river was very muddy and all got across safe. Cost \$1.75.

18 July 1887 - Monday

Bought a sack of corn for 25¢. Traveled about 22 miles today. Had to burn corn cobs to cook with. Something new to us.

Friday

About 5 o'clock we came to Marysville. Inquired the route to Manhattan. Bought some meat 25ϕ , sugar 10ϕ , Blackberry Balsam 35ϕ , peanuts 15ϕ , Tobacca 10ϕ and tea 25ϕ .

27 July 1887 - Wednesday

We passed in sight of the Fort which the 12th Wis. Infantry with 13th Wis. was camped in early spring of 1862. We passed through Junction City.

Friday

Near the town of Hope this p.m. we saw a big Jack rabit, the first we had seen on the trip. Saturday

Took a wrong road which brought us to Lehigh. From thence we went south about 2 miles on the Moundridge road where we went into camp.

1 August 1887 - Monday

We came to Little River where we went into camp for the night in about 20 or 22 miles of Hutchinson. Tuesday

Last night Fred caught some bullheads and sunfish and Sherman got a catfish that would weigh from 3 to 5 lbs. and we had them for breakfast. After break-

fast we pulled out for the sand hills. We crossed the Little River 4 times this a.m. Drove up on an old deserted ranch and took dinner. Pulled out through the sand hills which were not so bad as we supposed it would be. Finally we got out to the top and behold Hutchinson was in sight. We went down the west side and camped in 4 miles of Hutchinson.

3 August 1887 - Wednesday

We broke our camp which was on the straight road that entered Hutchinson on 4th Avenue. After we had drove into the suburbs of town we turned south onto 3rd Avenue and found ourselves just at the door of our children. Here our journey is done.

HERIDITY

What is called my character, or nature, is made up of infinite particles of inherited tendencies from my ancestors—those whose blood runs in my veins. A little seed of laziness comes from this grandfather; and of prodigality from that other one.

One of them may have been a moody person and a pessimist; while another was of a jovial nature who always saw the sunny side of every event. One may have had a most satisfactory life as a philosopher; while another ambitious one never was contented with actual conditions whatever they were.

Some remote grandmother, perhaps has stamped me with a fear of dogs and love of horses. There may be in me a bit of outlawry from some pirate forefather and a dash of piety from one who was a saint.

My so-called particularities; my gestures, my ways and my mannerism, I borrowed from all, without any exception. So everything in me passes on through my children. I am sewn between ancestry and posterity. I am a drop of water in the flowing river of time; a molecule in a mountain; a cell in a great family tree.

As we enter life we find all these fears and fancies; likes and dislikes; dispositions and temperament already made in the human beehive and crawn into them so that they become a part of our true fibre; part of our personal texture; part of our frame of mind and body. This is our birthmark; this is our heritage.
