PRESIDENT'S MESSAGE

I would like to introduce myself for those who haven't been able to make the meeting since last April. I'm Karen Burgess, I've been a member since 1984. For the last few months I had the privilege of serving as President. It's really been a learning experience, but one that I've enjoyed. I was born and have life lived most of in my My husband, Medora-Hutchinson area. Dudley and I have one son, Darin. really enjoy doing genealogy and know that it will be a lifetime hobby for me. I've recently purchased a computer so this coming year I plan on being very busy. I also help at the local LDS Family History Center on Wednesday mornings. Come by and see me and take a look at what the Center has to offer.

At this time I want to thank all the people that have helped me and have served on committees. A special thanks to our vice-president, Ruth Filbert, without her I would have been completely lost. And, I really appreciate the effort the new editors are doing in getting THE SUNFLOWER up to date. Also, I wish to thank all the members for staying with us during this last year. We need you all! KPB Feb 1990

RENO COUNTY GENEALOGICAL SOCIETY

The Reno County Genealogical Society of Hutchinson, Kansas, was founded in 1978 for the purpose of fostering genealogical research, promoting the exchange of information and encouraging the deposit of genealogical and historical materials in established libraries and archives.

Membership in the Reno County Genealogical Society is open to anyone interested in genealogy. Dues are \$10 per year per family, as of 1 April 1989. All dues are paid at once for the period of 1 April 1989 to 31 March 1990.

Donations and gifts to the society are tax deductible. Meetings are held on the third Monday of each month (except December) in the auditorium of the Hutchinson Public Library, Ninth and Main, 7-9 p.m.

NEW U.S. RESEARCH MATERIALS

Periodical Source Index (PERSI)

The Periodical Source Index is a subject index to thousands of articles in genealogical periodicals. Using PERSI can save you many hours of searching through unindexed periodicals. The index is published by the Allen County (IN) Public Library Foundation as a joint effort with the Genealogical Department of the Allen County Public Library. The microfiche is available at the Hutchinson Family History Center.

PERSI has these features:

*Indexes 1,700 English and French language genealogical periodicals.

*Provides subject access to about 500,000 articles.

*Includes separate indexes to articles on families, localities and research methodology.

THE INDEX DOES NOT:

*Index every name in an article.

*Include queries, book reviews, ancestor charts, or family charts.

*Include family surname magazines or newsletters.

*Include the actual article.

*include page numbers for the articles.

The PERIODICAL SOURCE INDEX has a retrospective index (covering articles in journals dated from 1847 - 1985) and annual indexes (for periodicals dated 1986 and later). The retrospective index is not yet complete, but it presently indexes about 200 of the most popular genealogical periodicals.

Both indexes have been received by the Hutchinson Family History Center. Ask for microfiche set #6016863 for the retrospective index and #6016864 for the annual section (1986 and later).

To obtain copies of articles listed in the PERSI INDEX, patrons may contact the Allen Public Library. All of the periodicals indexed in PERSI are available at that library, and patrons may order photocopies. Patrons should send a letter describing the articles they want copied, providing the full entry from PERSI and the name of articles in each letter, generally not more than five to eight articles. They will be billed a \$3.00 fee for each letter plus \$.20 per page copied. They should not make requests by telephone The address of the or fax machine. library is: Allen County Public Library, P.O. Box 2270, Ft. Wayne, IN 46801.

GENEALOGICAL WORD LIST

The Family History Library has begun publishing a new series of genealogical word lists. First off the press is the Dutch list, which gives Dutch words with English translations.

It lists approximately 900 words that you are likely to find in Dutch genealogical sources, including general words, numbers, dates and times. It also describes the characteristics of the language and suggests sources for further help. Danish, German, Norwegian, and Swedish word lists will be available later in 1990. All lists will be available in family history centers.

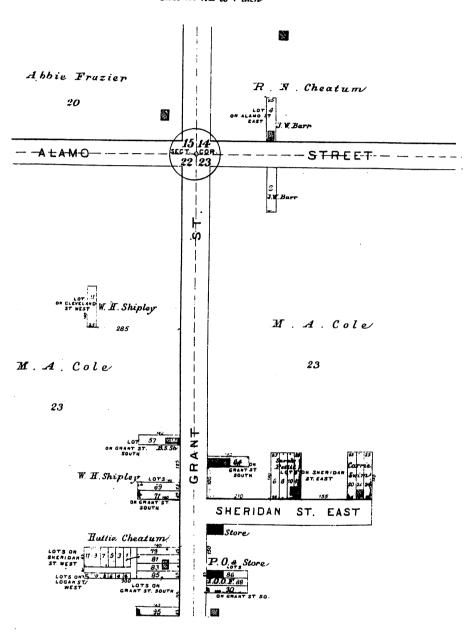

As one of the editors of THE SUNFLOWER, I would like to thank the society for purchasing a word processor. I have really enjoyed learning how to use this machine. I work on the word processor every chance I get. It gets a little discouraging when I erase something I wanted to save, but I think I am getting the hang of it now.

This machine will make my job so much easier and faster. I will no longer have to type everything twich to get the right margins even. We will be able to do articles in advance and save them on discs, then print them out as we need them. Ruth FILBERT and I hope to be caught up with all the back issues of the quarterly by the end of May. Please bear with us while we catch up.

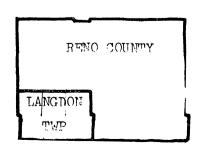

If anyone has suggestions or comments about **THE SUNFLOWER** please contact Ruth or me. Pam STANSEL

LANGDON

Langdon township was organized March 24, 1874. It covered the southwest corner of Reno County, KS and contained the present townships of Langdon, Grove, Miami, Bell, Loda and Arlington. See: THE SUNFLOWER VOLUME VII No. 1 Feb. 1985 for the Plat map of Langdon 1902.

The first Trustee of Langdon was J. J. Ulner; Clerk, G. W. Brown; Treasurer, J. Elliot; Justice of Peace, W. H. Collins; Constable, Isaac Jordan.

GROVE TOWNSHIP

In 1876, Grove township was formed out of the section of Langdon township which now consists of Grove, Miami and Bell townships. See: VOLUME IX No. 4 Grove Twp. Directory. The 1st Trustee was W. J. Van Eman; Clerk, E. H. Meyers; Treasurer, J. H. Hickman; Constables, R. O. Van Eman and C. L. Ely; Justice of Peace, Noah Bellew.

LODA TOWNSHIP

The 3rd of July in 1877 a petition was filed to form Loda township by cutting Township 26 Range 8 from Langdon township.

First election results were Trustee, W. H. Warner; Clerk, J. C. Laymon; Treasurer, W. A. Watkins; Justice of Peace, Wm. Potter; Constable, J. M. Jones.

BELL TOWNSHIP

Bell township was founded October 7, 1878. It was formed from the southeast corner of Grove township. Bell township was named after Mrs. W. J. (Isabelle) Van Eman. Mr. Van Eman filed a homestead claim on the S E $\frac{1}{4}$ of Section 6 and the timber claim on the N E $\frac{1}{4}$ of Section 7.

The first Trustee was Barnabas De Weese; Clerk, J. R. Brown; Treasurer, Joe Barnett; Constables, J. B. Eaton and C. E. Doty.

ARLINGTON TOWNSHIP

Arlington township was organized January 4, 1881, by Robert Burling. See: VOLUME IX, No. 3 of **THE SUNFLOWER** for a township map of Arlington and a story of the town of Arlington.

MAIMI TOWNSHIP

Miami township was one of the last townships to be organized. It was formed form the south half of Grove township October 1, 1894. See: VOLUME VII No. 3 for a map of Miami township and the "Early History of Turon, KS".

OSAGE INDIAN TRUST LAND

The Osage Indian Trust Land was a strip of land twenty miles wide extending from Fort Dodge in Ford County on the west to a point south of Fredonia on the east. This was land ceded to the Osage Indians for moving into Indian Territory.

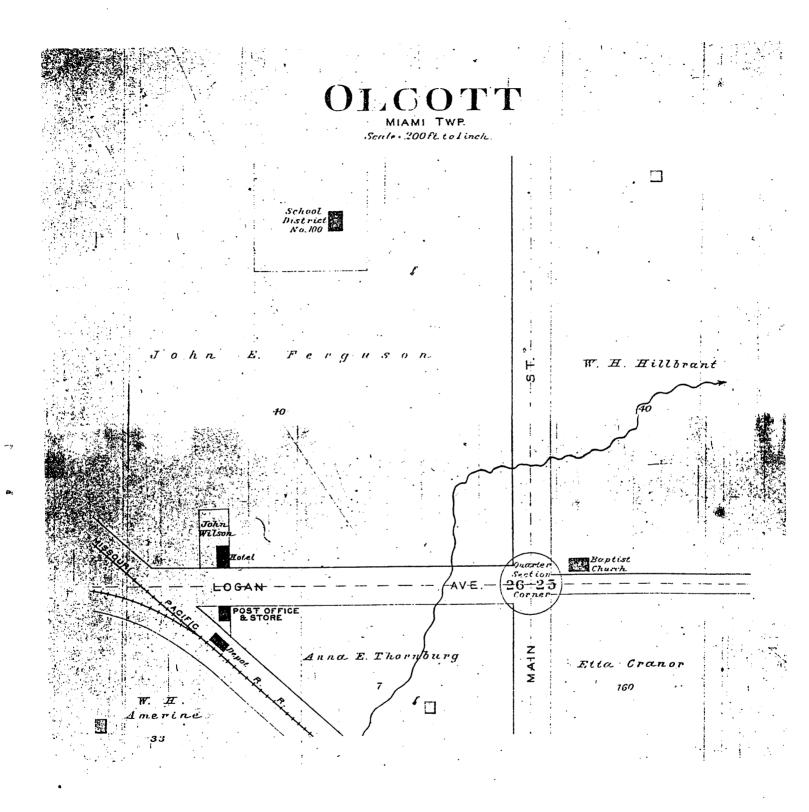

Sections 25 through 36 inclusive or the southern two rows of sections in Bell township were in the Osage Reservation. This land could be purchased for \$1.25 per acre.

By January 1, 1876, all homestead and timber claims in Bell township were claimed. All that was left was the Osage Indian Trust Land.

FORGOTTEN TOWNS OF SOUTHWEST RENO CO.

OLCOTT

Olcott, a hamlet in Miami township, Reno County, is the terminal station on the Olcott & Iuka branch of the Missouri Pacific and also, on the main line of the same railroad in 1917. It is located 30 miles southwest of Hutchinson, the county seat, and 5 miles southeast of Turon. Olcott has telegraph and express offices. The Post Office was established the 6th of April 1887, when the Post Office in Dresden, Kingman Co., was moved to Olcott. It continued operating until 31 Dec. 1907 except for an interruption in service between 15 Jan. 1903 to 11 Mar. 1904. Mail was distributed by rural delivery from Turon after 1904. The population according to the U.S. 1910 Census was 53 residents. See: Olcott town plat map this issue and the Miami Twp. plat map VOLUME VII No. 3 page 30 THE SUNFLOWER for the location of Olcott.

SEGO

Sego, an inlet hamlet of Reno County in 1917 was located 18 miles southwest of Hutchinson, the county seat, and 7 miles from Arlington on the Missouri Pacific, the nearest railroad and shipping point. The Post Office was established 12 Oct. 1874, and discontinued 14 Jan. 1905. The 1910 U.S. Census listed 16 residents.

OCOEE

Ocoee - As near as I can locate Ocoee, it was in Section 29 of Township 26 Range 8 West. See: Map of Reno County, KS, 1880 in VOLUME X No. 2 page 16 THE SUNFLOWER.

BONE SPRINGS

Bone Springs, a rural hamlet of Reno County in 1917, is located on a tributary of the Ninnescah river, about 25 miles southwest of Hutchinson, the county seat. A Post Office was established October 12, 1874, and continued until November 29, 1902. The first postmaster was A. Kilmer. Later mail was supplied to the inhabitants by rural free delivery from Arlington.

JORDAN SPRINGS

Jordan Springs was located approximately two miles west and ½ mile south of Langdon in Langdon Township. Jordan Springs school would have been on the border of Grove Township. There was a Post Office listed for Jordan Springs between 18 Jan. 1875 and 19 Oct. 1887.

DESIRE

Desire - The Post Office was established 24 Jan. 1877 and continued until 23 Aug. 1878. (Could have been located close to the border of Section 25 & 26 in Arlington Township.

GEM

Gem - No Post Office listed. Gem was shown on the 1880, 1882 & 1884 maps of Reno County (VOLUME X No. 2 page 16 of THE SUNFLOWER). Possibly located in Section 2 Township 25 South Range 9 West of Langdon Township.

EDITORS NOTE: Do you have personal/family knowledge about the Forgotten Towns in the original Langdon Township? Any additions or corrections to this article are welcome. Ruth

BELL TOWNSHIP

In 1873, settlers from Tennessee and Iowa began to file for homesteads in Township 26 Range 9 West of the 6th Principal Meridian. This township was later named Bell Township. Two settlements developed within a mile of each other: Neatherland and Buffalo.

NEATHERLAND

Sam Poteet's homestead on the southeast quarter of Section 22 (S E 1/4 Section 22) served as a distribution point for mail brought by settlers from Hutchinson. The Post Office was named Neatherland after a small town in Tennessee, when it was established August 12, 1874. The first postmaster was J. F. "Frank" Martin. A. M. Webb became postmaster in April 1876. The post office was moved to Buffalo in 1878, but retained the name Neatherland.

BUFFALO

Joshua Jones homesteaded the N W $\frac{1}{4}$ Section 14 in 1873 and started a small store in his home. Other stores were started on the four corners. The small trading post was called Buffalo.

Early businessmen were: Dr. Brown, who was the first doctor and had a small drug store in his home. Dr. Brown had the Neatherland Post Office in his home after 29 April 1878 and was the third postmaster. Cal Ely and Andrew Gardenhire from Tennessee had a general store selling almost everything. Sam Mateer had a blacksmith shop. O. S. Jenks, Wisconsin was a druggist. Frank and Will Jenks built a flour and grist mill powered by the wind. Wanda Oneal and her sister were dressmakers.

LERADO

Lerado was located in Bell township, thirty miles southwest of Hutchinson, KS. It was located on the town site of Neatherland. Neatherland Post Office was renamed Lerado May 2, 1884, and continued until February 13, 1904. Lerado was supposed to be spelled Laredo after Laredo, Texas, but when the papers to establish the post office were received the name was Lerado and it couldn't be changed.

Dr. John A. Brady, of Louisville, KY, bought 640 acres of land for the town site. One hundred and twenty acres were platted for the town site, street signs erected, and 20,000 catalpa trees were planted. Dr. Brady bought the N E $\frac{1}{4}$ of Section 22, which was the homestead of M. S. Ely, the N W $\frac{1}{4}$ Section 23 from Ab Webb, and the S W $\frac{1}{4}$ Section 14 and S E $\frac{1}{4}$ Section 15 from Frank Martin in Township 26 South, Range 9 West of the 6th Principal Meridian.

As early as 1884, it was thought that up to eight railroad companies would build railroads through Bell Township. The Chicago, Kansas and Nebraska (C.K.&N.), a part of the Rock Island, was to build southwest from Hutchinson and the Missouri Pacific northwest from Kingman. Other railroads interested in Bell Township were the Wichita and Rocky Mountain, Kansas Southwestern, the Wichita, Dodge City and Trinidad, the Denver, Memphis and Atlantic, and a branch of the Santa Fe. The Rock Island and the Missouri Pacific planned to cross at Lerado and it was sure to prosper.

Dr. Brady built a plant to make concrete blocks. The two-story bank, two-story Opera House and a shop for the Lerado Ledger were built by Dr. Brady of concrete blocks.

Lerado was the only city to advertise that it had a complete Water Works System. The standpipe for the windmill was on the southwest corner of the N E & Section 23. A huge 40 foot windmill was to pump water into a holding tank. Six inch cast iron water mains would distribute the water.

This is a list of the different lines of business that could be found in Lerado.

THE LITERARY SOCIETY

The Lerado Literary Society held it's first meeting January 21, 1887 with temporary officers in charge. W. P. Jones, Chairman and W. H. Burkholder, Secretary. Officers elected were: N. G. Robertson, President; Ira Bullard, Vice President; W. H. Burkholder, Secretary; W. P. Jones, Treasurer; G. W. Ely, Sergeant of Arms. Miss Edna Brown, Editress.

The End of a Vision

Dr. Brady's dream never came true because he refused to give in to the demands made by the railroads for free land and a part of the town companies holdings. The Rock Island was built, but instead of going straight southwest from Hutchinson a sharp turn at Arlington put the railroad through Turon instead of Lerado. The Wichita and Rocky Mountain was not built. The Denver, Memphis and Atlantic crossed the Rock Island at Turon.

Most of the businesses moved to Turon and some to Olcott. Seventeen buildings moved at one time. Dr. Brady returned to Tennessee.

Schools

The first school in Bell Township was a subscription school taught by Cal Ely.

The first school district was New Home District 68 organized in 1875 on the N E 3 of Section 22.

Pleasant View District No. 83 was organized in 1878. Half of it was in Bell Township and half in Grove Township. A sod school house was built in the southwest corner of the S W $\frac{1}{4}$ Section 6 in Bell Township. Later a frame house was built across the road in Miami Township on the southwest corner of the S E $\frac{1}{4}$ of Section 1.

Bell District No. 93 was organized in 1879. The school was located in the southwest corner of the S E $\frac{1}{4}$ of Section 2. The first teacher was Lizzie (Van Nay) Watkins and the second teacher was Nettie Mateer.

Belmont District #95 was established in 1879/80 on Section 32.

Laredo District #134 was established in 1886 in the southwest corner of the S W 4 of Section 14.

Walnut Grove District No. 155 was organized in 1890 on Section 20.

MEDORA and MEDORA JUNCTION

by Karen POULTON BURGESS

I've heard them all, like, "We were traveling north on 61 and I sneezed and missed Medora." Or "I blinked when I went by and missed Medora." Those were standard jokes about my home town as I was growing up. We locals would join in the fun, when asked about the size of our town, we would always reply, about 100 people, 12 dogs, 15 cats, etc. I imagine that most residents of small towns feel the same, knowing that our town wasn't really much of a town but at the same time having a deep sense of pride because it is our own. Anyway, that's the way I've always felt. Much of my pride was because I knew that my family's history was entwined with that of Medora's. For as long as there has been a Medora there have been Poulton's living in Medora. For that reason when the editors of THE SUNFLOWER asked me to write on the subject I didn't hesitate. something that I had wanted to do for a long time but could never get motivated. Having a deadline is a great motivator.

In November I gave a book review of "Ghost Towns of Kansas", for the general meeting. I commented on how sad it was about some of the towns dying just because a railroad missed going through the town. At the time I didn't realize that is what happened to the first Medora. As a child growing up I knew that there had been a previous Medora but I believed that the reason for the move was because of flooding of the Little Arkansas River. I'm sure that was part of the reason, however the San Francisco RR was what delivered the dying blow.

Medora, the first Medora, was platted and filed for record with the register of deeds on April 20, 1887. It was owned by the Reno Town Co., Mr. L.A. Bigger, President; Mr. C.F. Jolson, Secretary. Its location being about a mile and a half northeast of the present Medora.

Reno Town Co. originally bought the land from Mr. William Poulton. Interesting to note for me that one of the streets was named Poulton, another William and another Robert. William Poulton was my Great Grandfather and Robert was his child that died in infancy.

The 1895 state census list 61 households and 63 families that gave their address as Medora. It's my belief that only a hand full of these actually lived in town.

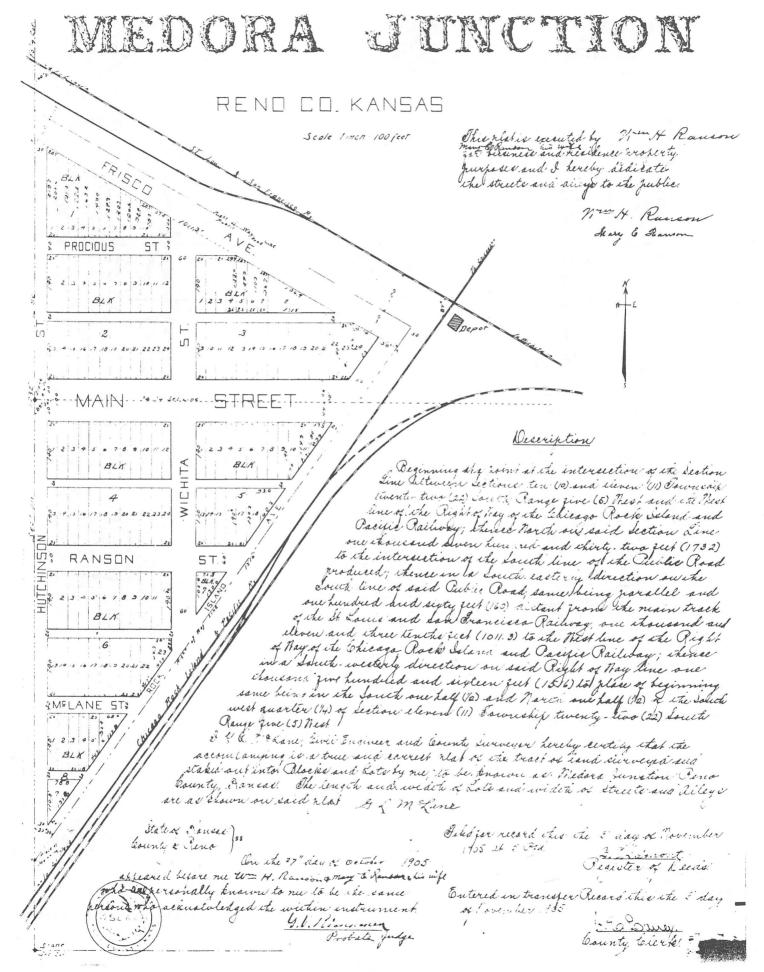

The Pacific railroad ran along the northwest edge of the town. About the turn of the century the San Francisco RR built its branch line northwesterly, only about 1½ miles to the south west of the town site. The Rock Island immediately had plans for relocating its station at the junction with the Frisco branch. Residents of Old Medora opposed the idea. Then one Sunday morning residents awoke to discover the station was being moved south to the new location. Objectors were unable to obtain a court injunction because it was Sunday.

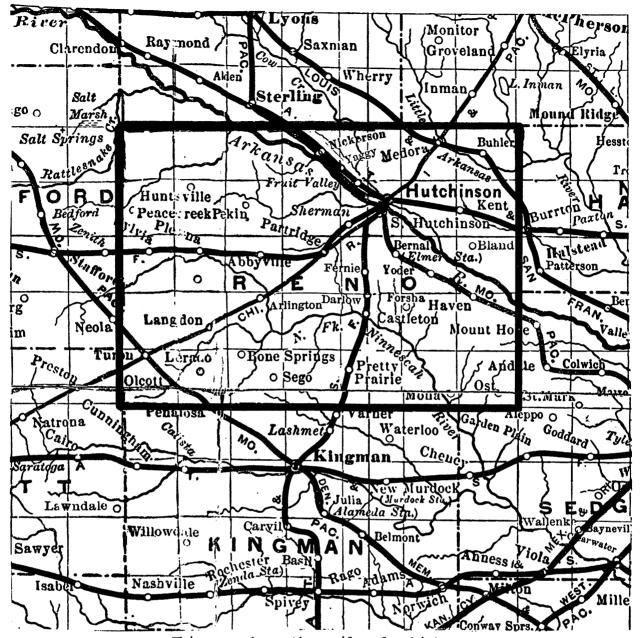

The new town of Medora Junction was then platted and filed on October 27, 1905. Soon the hotel had moved down, then the rest of the residents, including my Poultons. Owners of the new town were Wm. and Mary Ranson.

DON'T DAMAGE YOUR DOCUMENTS

The Spring 1989 issue of the newsletter published by the Friends fo the Kentucky Public Archives, Inc. has some interesting notes as follows: "Some useful objects on your desk may destroy information stored on your paper records, photographs and computer diskettes. The adhesive on pressure sensitive tapes, such as Scotch brand tape and Magic Mend, contains a great deal of acid and literally eats paper. This damage is irreversible and, at the very least, will leave acid stains on the paper.

Self-stick notes, such as Post-it Notes, are a handy and efficient way of leaving messages and marking documents. The sticky top edges of the notes, however, leave behind an adhesive when the note is removed. Also the colors of the notes tend to run when wet, so they should not be used on papers of value.

Magnetic paper clip holders magnetize the paper clips that are stored in them. If these clips are then used to attach a note to a diskette, for example, the magnetized clop can damage or erase the information on the diskette.

Do not store diskettes near a telephone, stereo speaker or anything magnetized.

NEWSPAPER MICROFILM

The Kansas State Historical Society is planning to release 40,000 rolls of microfilmed records, which includes most of the vast newspaper collection for circulation through the Inter-library Loan Program in the summer of 1990.

When funding permits a listing of microfilm will be printed and distributed through local public or academic libraries.

The Reno County Genealogical Society has sent a request to the Kansas State Historical Society for the return of all newspapers (from Reno County) that have been microfilmed.
