MISSOURI DEATH CERTIFICATES

The Missouri State Archives now offers the Missouri Death Certificate Database. It's a new online index and images. Currently the index covers from 1910 to 1955 and the images date from 1910 to 1920. It is at:

http://www.sos.mo.gov/archives/resources/deathcertificates/

The above new site is great for those that have Missouri ancestors. They are also digitizing the actual certificates so that you can read them online. The cost of getting a copy is only \$1.00. However, because of the value of the new site they have been overwhelmed by requests. The following has been copied from their website.

Death Certificates, 1910-1955

Important death Certificate Announcement
Optional Expedited Service

The Missouri Death Certificate Database has proven widely popular. Researchers conducted over half a million searches within the first days of the database's release. This amount equals nearly five months of searches on all the Missouri State Archives' other online databases combined. Within two weeks, we have received requests to copy 7,000 death certificates. At the same time, we have received 700 e-mail queries regarding the database. These numbers continue to grow. We are pleased that so many people are benefiting from this database. Unfortunately, this unprecedented response is overwhelming our staff, who must also complete their regular duties. As aq result, staff response to copy requests is currently taking up to twelve weeks.

We are committed to reducing the wait for patrons. To help relieve demands on staff, we have accelerated the schedule for release of online images. Rather than releasing images by decade, we will release images as scanning for each year is completed. Already, we have added 1921-1923 and expect to add 1924 very soon. Images to 1925 will be released by the end of June 2006, and w anticipate having images up to 1930

available in September 2006. We have also hired temporary staff to help us meet the initial requests for copies.

Knowing the challenges we face in meeting this demand, the Friends of the Missouri State Archives has volunteered to provide expedited service for those patrons who need their copies sooner than we can provide them. The Friends of the Missouri State Archives—a no-for-profit 501 (c) (3) organization that supports the activities of the Missouri State Archives—has offered to hire and oversee additional workers to copy death certificates. To cover the cost of this program, and additional fee will be charged for each copy.

This expedited service is optional. Copies will still be available at the cost of \$1.00 for anyone that prefers to have their request completed by the Missouri State Archives staff. For those who would like faster service from the Friends of the Missouri State Archives, copies will be available for \$5.00 per name requested. There is also no limit to the number of requests that can be made through the Friends. Fees generated from this service will be dedicated exclusively to the death certificate project. As you search the database, you will find instructions on how to request copies from either the Missouri State Archives or the Friends.

We hope that these measures make an already successful project even better for our patrons. Our goal is to provide you with the fastest and most efficient service possible. We are grateful for your patience as we strive to meet that goal.

NEW GENEALOGICAL MAGAZINE

There is a new genealogy magazine on the newsstand called "Internet Genealogy" from the publishers of Family Chronicle. A free issue can be found on the Internet Genealogy's website www.internet-genealogy.com that you can download.

A few of the articles that I found in the July 2006 issue are:

- Creating a Family Website—Branching Out: Putting Your Family History on the 'Net
- Genline—Swedish Sources for Swedish Roots
- Free Online Newsletters
- Podcasts—Now Play Genealogy Podcasts

The following two articles are from Eastman's Online Genealogy Newsletter and is copyright 2006 by Richard W. Eastman. It is re-published here with the permission of the author. Information about the newsletter is available at http://www.eogn.com.

Genealogy and Health

Genealogy has become an interest of mine and, in search of my long-gone ancestors I have found that there is more than family history as we know it here. In genealogy we find the clues to our own history of illness or lack thereof and so it is with interest that I saw the Surgeon General of the U.S. realized a software tool to help all of us with our health would be a good idea. My Family History Portrait is free software that you can download and use. The site describes it as: "a visual depiction of your family tree. It is constructed using circles and squares to see who is related to whom and how they are related. In terms of health and disease, a family health portrait can help show a health care provider how a particular trait or disease is passed on from generation to generation."

So, in addition to helping you pass this valuable information on to other family members, it's a way of seeing how health is a part of genealogy. For the free software that you can download go to:

http://www.hhs.gov/familyhistory/order.html

PROGENCY SOFTWARE ANNOUNCES NEW WEB SITE

The following is an announcement from Progeny Software:

New Progeny Genealogy web site contains your genealogy software and charting needs. The new Progeny Genealogy web site, http://www.progenygenealogy.com is now home to all of Progeny's genealogy add-on products.

OLD DISEASE NAMES AND THEIR MODERN DEFINITIONS

Would you know what the following diseases were if you read about them in a family diary, death certificate or obituary?

- Ague
- Bad blood
- Canine fever
- Dry bellyache

If you don't, there is a website that will explain what old names referred to and what modern medical knowledge now calls them. The website is http://www.pricklytree.webhostingpal.com/tools/

KANSAS STATE FAIR

Members of the Reno County Genealogical Society will be giving short genealogical workshops at the Kansas State Fair.

Karen Burgess, Sandy Immosote Wedman, Gale Wall and Ruth Filbert met in our motel room in Emporia before the KCGS conference to design a folder to be used during the workshop.

Plans, as to time and subjects, are being made at this time, but they should be finalized soon. The workshops will be held in the Oz building at the fair, close to the place where family histories are displayed.

The first part of the program will be on "Beginning Genealogy" followed by a question and answer period. The second part will be on a specialized subject, such as, Research on the Internet.

If you are available to help with this project, please notify Karen Burgess or Ruth Filbert.

Do Not Assume

- 1) Just because a BMD is registered in a county, does not mean your Ancestor lived in that county.
- 2) Never presume an Ancestor has only been married once.
- 3) Never presume a Visitor is not related.
- 4) Never presume a Marriage Witness is related.
- 5) Never believe someone is not your Ancestor just because the name is not what you think it should be.
- 6) Remember that census takers used the name that they were given, such as nickname, middle name, etc.
- 7) Remember most of our Ancestors could not read or write, or knew exactly how old they were.
- 8) Never presume that an ancestor died in the county where he was known to live. He could have died while living or visiting in another county/state.

RESEARCH COSTS

NARA research costs \$10.00 per person and the www.grandmaupatree.com costs \$15.00 to research per person.

With either to do this research you must know where the person lived and the relative that lived nearest to them.

VIDEOS FROM NARA

Spotlight Historic videos now online thanks to Google by A. Hagedorn, Information Technology Assistance Center published Feb. 28, 2006

Search-engine company Google.com has joined efforts with the U.S. National Archives and Records Administration to put historic video footage online. Among the first videos to be digitized from the National Archives collection of 114,000 film reels and 37,000 videos are

- * U.S. government newsreels documenting World War
- * motion picture films from the 1930s
- * space flight

The good news is that all of the videos are public domain, so educators, historians, and filmmakers can use these clips without fear of copyright infringement.

MESSAGE FROM THE FGS BOARD

Delete Button - Friend or Foe?

Martha Henderson FGS Secretary

Everyone would agree the delete key makes it easy to banish annoying spam from e-mail boxes. Additionally, the delete key cleans out mailboxes by getting rid of non-essential messages. Periodic 'house cleaning' is necessary; however, for those of us involved with the running and managing of a genealogy or historical society, are we losing the day-to day-record of society activities?

As more of your society's business is conducted online, is there a person or committee collecting online society business? For example, as chair of the fund-raising committee, your committee has just concluded an extensive online discussion on the merits of several fund-raising ideas, two of which will be presented at the next board meeting. Before you delete that thread of discussion, or file it way in an online committee file, is there someone in your society to whom you can forward the thread for possible inclusion in the society's archives?

As historian for several nonprofit organizations, I have processed the records of past society leaders whose files are full of real, honest to goodness letters and memos. Most contain handwritten notes indicating action taken about a particular society project or program. Are we keeping this type of online record? Will future generations understand the background behind society decisions? As members of organizations that work tirelessly to uncover all types of records concerning our ancestors, are we shortchanging the records of our own society?

I would love to hear from anyone who is saving online society records. Your efforts to keep the delete key at bay are most welcomed and could be featured in an upcoming article. Please e-mail me at hender-sonmartha@sbcglobal.net

Harry Morgan - Passenger Conductor

As I research the cemeteries of Reno County I often come across a headstone that makes me pause and wonder about that person. Such is the case with Harry Morgan. At the Wildmead Cemetery in Nickerson, KS is the resting place of Harry. His fairly large headstone is enclosed with a fence. Other than the articles in the newspaper about him being shot and his death very little was found about him. Perhaps one of our readers will know more.

- The Hutchinson Herald 9/4/1880: Harry Morgan, of Nickerson, a conductor on the A. T. & S. F. railroad, was shot by a laboring man on the train, while near Ellinwood, last Tuesday. The train was going west, and a party of men were on board en-route to New Mexico, for the purpose of working on the road. They seemed to "feel their oats" considerably, and a squad of them were on top of one of the coaches conducting themselves in a noisy and beastly manner. At the command of the conductor they all came down and took their seats inside the coach except one Montgomery, who engaged in an altercation with Mr. Morgan, and being requested by the latter to put away a revolver which he had drawn, commenced cursing, and placing the muzzle of the weapon close to Mr. Morgan's person, pulled the trigger. The ball lodged in the upper abdomen, making a severe though not necessarily fatal wound. The would-be assassin was placed in jail at Great Bend. There was considerable talk of lynching.

- The Argosy 9/8/1880: Shooting of Conductor Harry Morgan

- The Argosy 9/22/1880: Death of Conductor Morgan
Sunday morning last a gloom was thrown over our city by the report of the death of Conductor Harry Morgan, whose death occurred at quarter of six on that morning. He had, apparently got along so well ever since he was shot that everyone supposed he would recover...

Mr. Morgan was 37 years of age. He had been in the employ of the Santa Fe railroad for five years, a resident of Nickerson over a year and served his country four years during the war. He was a passenger conductor on the railroad and enjoyed the confidence and stood high in the estimation of the officers of the company, and was an honored and highly respected citizen. He was a loving and faithful husband and leaves an equally loving and faithful wife to mourn his loss.

- The Hutchinson Herald 9/25/1880: M. J. Ruddy's hearse was taken to Nickerson Tuesday afternoon, to take the remains of conductor Morgan to the cemetery.

-1880 Nickerson, Grant Township, Reno County, Kansas Federal Census: Harry Morgan age 30. Married. Conductor. Born in Maryland. Parents born in United States. Ella Morgan. Wife. Age 23. Married. Keeps house. Born in United States. Birth place of parents not listed.

Microsoft Live Local

Microsoft have now brought out a product (free to use so far) in Beta, that in some respects is better than Google Earth. The whole of England (not looked at Wales as yet) is covered by "Microsoft Live Local" in high resolution aerial imagery, that's a failing of Google. The only drawback, as with Google, is that the areas covered by high res images are not up to date (at least 5-7 years old).

ORPHANED PHOTOS

By Gale Wall

How many times have you browsed through an antique or second hand store and found old family photos for sale? My reaction is the same every time - I shake my head and wonder how this can happen. I then vow to prevent the same from happening to my family photos. From time to time I will purchase a photo if it has a name on the back, with the hope of sending it home to a descendant. I (try to) limit my purchase to less than \$2.00, since I don't ask for reimbursement. My latest purchase was from an antique store on Main Street in Hutchinson. The back is labeled **Maxine Ellis 1914**.

household in the 1930 Clifton Township, Wilson County, KS Federal census, as Maxine J. Polson, age 19. Married at age 18, with a 3 year and 1 month old son, Donald L. Polson.

Will one of these Maxine's be the one I am looking for? I'm not sure, so the hunt continues. Perhaps one of our readers will know. What do each of us have planned for our precious photos when our time has passed? Will they be treasured by the next generation? Or possibly find themselves for sale on a dusty shelf, waiting to go home again?

To date, I only have one that I haven't sent home [not including Maxine Ellis]. She's been with me since February 2005. I have information on her short life, but haven't traced her 2 children to find a descendent. Until such time, she sits in my genealogy room and keeps me company. It is labeled: Miss May Kiblinger, Jackson, LA.

2006 Kansas Council of Genealogical Societies Conference

Featured speaker - Sharon DeBartolo Carmack - www.sharoncarmack.com - was accompanied by Jim Warren, who took care of the sound system and book sales.

Pictured: Jim Warren, Sandy Wedman, Sharon DeBartolo Carmack, Carolyn Miller, Ruth Filbert, William Rexroad, Becky Hatton, Jim Stoecklein, Karen Burgess, Rita Lingg and Gale Wall.

There were 86 people registered for the Kansas Council of Genealogical Societies Conference in Emporia June 10th. Reno County was represented by Karen Burgess, President of RCGS and Recording Secretary of KCGS; Jim Stoecklein, RCGS Treasurer; Ruth Filbert, KCGS Vice President and RCGS Editor; Sandy Wedman, RCGS Publications Chairman and members: Rita Lingg, Bill Rexroad, Becky Hatton, Gale Wall and former member, Carolyn Miller. The programs presented by Sharon DeBartolo Carmack were informative, especially the one on copyright.

For those of you who are not members of KCGS, Janeice Crosson, KCGS Newsletter Editor, sent out an excellent four page newsletter the 16th of June via e-mail. The newsletter gave a brief summary of the KCGS annual conference and included many pictures of the people in attendance. Membership is open to any individual. The dues are \$15.00 a year and include the Kansas Review, KCGS quarterly.

Comments from some of the attendees:

Karen Burgess:

For me the best part of going to any genealogical conference is that it gets my genealogical juices all fired up. I always get fresh ideas on how to do research, and it's just a lot of fun.

Ruth Filbert:

The "Flesh on the Bones" made me more aware of the social history that can be found in magazine articles and "books of that time period". It was an excellent conference and many thanks go to the Flint Hills Genealogical Society for their arrangements. A new first for Karen and I, stopping on the way home from Emporia to give Gale a chance to photograph a little cemetery along the road side near Strong City.

Rita Lingg:

The KCGS Conference was informative and entertaining with Sharon DeBartolo Carmack giving new ideas and direction in her well presented lectures. The "Flesh on the Bones" presentation pointed out the value of adding personal and social history to our ancestor's stories making them interesting reading for our relatives and friends. These details make our family come to life and hopefully will encourage interest for our younger members.

Bill Rexroad:

The speaker was quite good from beginning to end. The part I liked best was the session on copyright.

Jim Stoecklein: I really enjoyed the presentation about "Flesh on the Bones". The regrettable part is that I have no social history to relate to, other than my growing up years, with my grandparents because they were either gone before I was born or died when I was quite young. I didn't take the time to visit with my parents about their growing up years because I never thought about genealogy. Now I have so many questions that I dream about it. I also enjoyed the "Copyright" presentation but was somewhat shocked by all the restrictions. I have many pictures, mostly family, in my Family Tree maker album that would be in violation if I were to publish. I also enjoy visiting cemeteries but was a little bit disappointed in her presentation. How to identify the time period by the Headstone material was interesting.

Gale Wall:

This was my first conference and I really enjoyed it. It was very informative and I came away with new ideas. I like Sharon's book "Your Guide to Cemetery Research". You will find me rambling around Reno County [and other places] photographing cemeteries.

Mark your calendars for the 2007 conference! June 16, 2007 Salina, KS

Samuel David Caldwell was born December 19, 1851, in Montgomery county, Ohio, and died January 4, 1917, at Plevna, at the age of sixty-five years and fourteen days. His early life was spent at his birthplace. He was married August 17, 1872, to Miss Hannah Landis, who survives him. They came to Kansas March 25, 1887, lo-

cating in Plevna. Mr. Caldwell was a kind companion, a loving father, and a respected citizen. He was mayor of Plevna for several years. When his time came to depart this life, he passed away peacefully. He had been in poor health for a year and a half. Rev. O. H. Feller of this city conducted the funeral services Friday afternoon at one o'clock. H. J. ENGLE FOUND DEAD

Aged Man Succumbs to Illness of Several Years

When Mrs. Allen Hall of Fourth avenue east, went next door to take supper to her neighbor, H. J. Engle, she found his lifeless body on the floor beneath the telephone. Dr. H. M. Stewart was immediately notified and an examination made.

Mr. Engle had suffered for years from asthma, and also had some heart trouble, and the supposition is that his death resulted from these aliments.

Mr. Engle had been unable to work much for the past two or three years, and Rev. and Mrs. Hall had been taking his meals to him and looking after him more or less. He lived alone at 614 Fourth east. His only known relatives live at Racine, Wis. And no arrangements will be made before they are communicated with.

Pig Bristles Will Adorn Milady's Hat. Milliners Announce Successful Substitute for Aigrettes, Now Barred by United States

Goose feathers and pig bristles have replaced the dainty aigrettes (An ornamental tuft of upright plumes, especially the tail feathers of a snow egret). The federal law prohibiting the sale of aigrettes went into effect today but milliners declare they have found a substitute in the goose feather and pig bristles which will deceive the most exacting connoisseur. The substitutes are put through various processes of burning and refining.

Golden Grain Dance

The Board of Trade rooms were swept and garnished yesterday, and also waxed and decorated, for a party given by the younger men of the grain offices and board of trade for their friends.

Continued on page 76

The commercial cub rooms were also requisitioned for the card games that were part of the evening's entertainment. The party was designated as a Golden Grain dance, and will probably be followed by others of the same nature, as the grain folks discovered last night that they were pretty nice people and could have a fine time together. Even some of the older crowd, who weren't in on the party - but that's another story. In line with the name of the affair, the dances and extras were appropriately named, and the one-step, fox trot and waltz walk were supplanted by "primary shipments," "export demand," "peace rumor," and other familiar terms. Mr. and Mrs. W. H. Hastings acted as chaperons for the following crowd: Mr. and Mrs. N. P. Fair, Mr. and Mrs. Herman Graves, Misses Marie Nelson, Margaret Baer, Edith Brown, Celina La-Gree, Florence Knox, Hazel Waggoner, Phoebe Boone, Julia Borgelt, Olga Boes, Sadie Webb, Anna Rosser, Ollie Wright, Tuley Sheperd, Mullen (sic), Gilberta Sweet, Leona Guth, Ethel Petersen, Vera Clark, Helen Haines, Josephine Caldwell, Lillian Reed, Alys McFarland, Stella Caskey, Elsie Shaw, Hazel Pettit, Hazel Hitchcock, Idel Pettit, Hazel Sluder, May Rishel, Rose Guth, Marie Guth; Messrs. Ninety per cent of the householders of this city own or rent enough ground to make a kitchen garden. News from the Kansas State Historical Society by Sara Keckeisen

Spring 2006

After a very healthy hiatus, the editor of the <u>Kansas Review</u> has graciously invited the Kansas State Historical Society to return with a quarterly news update, to let you know about fresh additions to our collections, pass on news and ideas from the world of genealogical research, and just let you know in general what is happening at YOUR state historical society!

This month will be devoted to introductions. For those of you who have been readers of the Kansas Review previous to 2002, you will remember that this column was written by Jane Kelsey, long-time Family History/Genealogy librarian at the Kansas State Historical Society. That year, seeking fresh professional challenges, Jane accepted the job of Government Documents librarian here at the Society. I was hired to take her place in the spring of 2002. I have an undergraduate degree in history from the University of Wisconsin-Eau Claire and a Masters in Library Science from the University of Denver. I had previously worked for the Kansas State Historical Society for eleven years—as Government Documents librarian! I was gone from our fold for thirteen years while I got my children raised enough to be able to take care of themselves (meanwhile keeping my hand in the book business by working part-time at Waldenbooks then as trade books manager at the Washburn University bookstore, both in Topeka). The Family History librarian position became available just as I was ready to go back to work full-time. I applied for the job, and was fortunate enough to be hired. So Jane and I essentially traded jobs! For the last four years, I have been enjoying myself immensely and learning so much. My schedule is such that three mornings a week, I help staff the Reference Desk helping to answer genealogical and historical research questions from our patrons, whether in person or by phone, mail, or email. Although we are not staffed to do in-depth research for anyone, if you have specific questions to ask, don't hesitate to write to us at reference@kshs.org or by mail to Reference, Kansas State Historical Society, 6425 SW 6th Ave., Topeka, KS 66615. Bear in mind that any research we do. other than checking indexes or the library catalogs, requires the prepayment of a \$15.00 research fee. For more information check www.kshs.org, write to us at the address above, or call us at 785-272-8681, ext. 117.

As I said, I intend this column to be a means of highlighting new books or collections we acquire, to pass on any research tips I can, and hopefully to answer any questions or concerns you may have about our facilities or procedures. To that end, I would invite your comments, questions or suggestions for discussion topics. Please feel free to contact me at skeckeisen@kshs.org if there are topics you are particularly interested in. Chances are, if you are interested in something or have a question about something, there are many other folks out there who feel the same.

This month, I'll take time for just a couple announcements. We have recently borrowed for microfilming, from the Topeka Genealogical Society, the original copies of the Shawnee County Marriage License Applications that they had rescued several years ago (literally, as I understand it) from the dumpster at the Shawnee County Courthouse! This is not a complete set of the marriage license applications (many names are missing and the time period covered is the mid-1880s to 1911) and the information contained in the license applications is essentially the same as that contained on the licenses themselves—except, if either of the applicants was underage, the application was accompanied by a written letter of permission from a parent or guardian. This information can be very interesting for the genealogist. The applications have not been filmed yet—the collection is still being processed to get it ready for filming-but the records have been arranged in alphabetical order. If you are interested in seeing if a copy of a Shawnee County marriage license application exists for your ancestor, contact us and we can check.

County plat books can be very interesting for determining where in a county your ancestors may have owned land. The KSHS has a good collection of such plat books. These sources are all microfilmed, so they are available to look at not only at the Research Center, but the films are available on Interlibrary Loan, so you can look at them at your home library. A list of the plat books we have, by county and date, is available for you to look at, at: http://www.kshs.org/research/collections/documents/maps/countyatlases.htm If you don't have internet access, let me know and we can send you a paper copy of the list.

If you are hooked up to the internet, you may also subscribe to the Kansas State Historical Society's enewsletter, which will regularly update you to events going on here in Topeka and at our several historic sites. In addition, coupons and special offers are frequently included! You can sign up for FREE at: http://www.kshs.org/kshs_news/email_form.htm

That's all for this quarter. Let me know what you would like to hear about in this column.
